How to score

A diagnosis of ADHD depends on the type and number of symptoms your child is having and how those symptoms are affecting him or her. This screening tool is scored by a healthcare provider and is used in the process of making a diagnosis. The tables on the back of this screening tool are for use by your child's healthcare provider. If you feel that your child may be showing signs of ADHD, please complete this questionnaire and share the results with your healthcare provider.

For office use only (for healthcare provider interpretation).
